Dowsed report completed:  

Harmonising & re-balancing:  
*effects should be start to improve before the above date*

*Please read first:*

When you read through the report, you may be initially alarmed by some of the terms used and the subject headings. Please don’t be!

Just as in the ‘real’ world, the “subtle realms” have many and varied actions and characteristics within them. If you are new to this sort of work please be assured that none of these influences bear any relationship whatsoever to the stuff portrayed in Hollywood movies or on television!

Over the coming weeks as the re-balancing progresses Skype appointments are useful so that we can talk through any observed changes. I will then tune in to boost or re-balance certain aspects as appropriate. I will do this in response to your feedback.

We are looking for signs of change. Please be aware that changes in behaviours of family members, pets, or even yourself are important but are often very subtle. In order for this healing to be most effective you do need to try to observe any changes that you feel within the house or in members of the family, *whether or not* you believe they are directly associated with the re-balancing work.

Although this report concentrates on the detrimental aspects of the living space, of course, many positive aspects are not included here. I am only searching for aspects that require re-balancing or re-aligning in order to provide the opportunity for optimised wellness.

While the Geomancy is taking effect, I usually advise you remember to rest and drink plenty of water.

If you have any questions or to book a Skype session please get in touch by email

*In this report, “Detrimental Weightings” are dowsed as scores out of ‘-10’: ‘-1’ being the least detrimental & ‘-10’ being the greatest detrimental effect*
1 – Ghosts, Spirits, Trapped Souls

Detrimental weighting /10

These personalities were not necessarily created in the space of your home but they have decided to share it with you since they passed. Indicated info: Male/female, age when passed, era of passing. Ghosts and spirits can sometimes get left behind instead of moving on properly. Their effects can be felt in a variety of ways. Minimal interference with the living might be felt as excessive tiredness, a feeling of being watched, or indistinct shapes seen moving out of the corner of one’s eye. Serious interference can manifest as objects moving or disappearing or interrupting people as they sleep.

2 – Site Guardians

All locations have their own guardians who are almost always benign and loving. However, sometimes in order to do their work they need to get the attention of the humans living in the space which may manifest in ways similar to the minor incursions of Ghosts and Spirits as outlined above.

PERSONAL SUBTLE ENERGY

3 – Detrimental Attachments / auric energy field disturbances

Created from emotional turmoil or trauma, not necessarily by the individual to whom they are attached. These are like “emotional black spots” in our energy fields which can replicate emotional patterns. We all carry them with us. They seem to be created from emotional turmoil or trauma, not necessarily by the individual to whom they are attached.

| Found = | - |

4 – Human Manifested Forms

Similar to the emotional black spots described above but this is when thoughts have taken on an existence of their own, hence they become a thought form or developed as far as a life form which is a being with a limited independent consciousness. These are created by repetitive thoughts but not always by the person to which they are attached.

| Found = | |

5 – Lower Animal Life Forms

Energy draining and personality-altering parasitic beings that live in the aura.

| Found = | |
6 – Fractured/Torn souls

The bio-magnetic auric field of a healthy person is usually neatly structured in layers. Sometimes emotional trauma can cause tears in these bands though which energy leaks.

7 – Spirits within auric field

‘Human’ personalities attached into one’s auric field.

8 – ‘Past’ life vows

Sometimes in our past or parallel lives we make oaths of poverty, chastity or similar commitments made with such passion that they stick. Often they are inappropriate for the life you are leading today.

9 – Karmic Problems

More past life confusion and chaos this time caused by karma. These days it seems karma can be dispelled by the client. I will show you how.

10 – Psychic Chords

Energetic links from one person to another usually created through emotional conflict, stress or unintentionally over-zealous protection. Most often found as a result of close relationships.
11 – Psychic Attack

Anybody that is thinking negatively about you on a frequent basis is subjecting you to psychic attack, so it needn’t be deliberate. Defences will be put in place.

<tr>

12 – Chakra Balance/Blockages

The energy centres of the auric field are these vortices of power. They should be clear and spinning correctly for optimum health.

The chakras will be cleared and re-aligned as part of the re-balancing work.

13 – Parasites

Some parasites can be energetically cleared. Physical parasites often require a change of diet.

14 – Anaesthetics/Vaccinations

Some traces of these are not so helpful and can cause reactions in individuals that are not welcome.

15 – Anything else to be considered regarding personal health

A general catch-all question

BUILDING - DETAIL

16 - Water Veins/underground streams

Known for centuries to affect human health, classic culprits for Geopathic stress. Some research in Germany has indicated links between underground water flows, the sleeping position of the subject, and cancer.

Approximate courses shown on floorplan in blue.

Found =

17 – Geological Fault lines

Some geological faults set up energetic disturbances similar to the piezo electric effect.

Found =
18 – Toxic Lines

*Human activity usually in the form of industrialisation (or quarrying) corrupts the energy flow across the land leading to a toxic line that can travel for many miles.*

<table>
<thead>
<tr>
<th>Found =</th>
<th></th>
</tr>
</thead>
</table>

19 – Man-made stress / disturbance lines

*Like toxic lines, these can extend many miles. Caused by human emotion on a large scale such as murder, battles, fatal accidents etc*

<table>

20 – Fabric of the building

*The fabric of the building can store detrimental energies, which can appear like echoes of the past. This check can sometimes highlight potentially hazardous physical structures as well, such as asbestos.*

</table>

21 – Fracking

*Effects can be created similar to fault lines.*

| Found = |  |
22 – Technopathic Stress
This is usually a source of electromagnetic transmission such as blue tooth, wireless, wireless phone, computer, or microwave oven. Indicated on the floorplan as an inverted 'T' in a square.

Found =

23 – Human Interference Lines
Deliberately set up to disrupt other human activity and can affect everybody along the length of the line, not just the target.

Found =

24 – Influence of Black Magic
From relatively mild encounters with an Ouija board to full blown witches covens. The energy remains in the space until cleared.

Found =

25 – Curses and Spells
Land can be subject to curses as much as people can be.

Found =

26 - Deconsecrated or sacred ground
Part of the unknown history of the land.

Found =
27 – Spirit Lines

_used by the departed, very similar to Ley lines. Sometimes the physical environment can interrupt the energy flow along the lines for spirit and so they object in, usually noisy, ways._

| 27- | - |

28 - Earth Energy channels (eg “Michael & Mary” lines)

_major energy flows around the earth. Sometimes they can become corrupted._

| Found = | |

29 - Earth Energy Lines

_smaller versions of the above. Shown on the floorplan in green._

| 29- | - |
| 29- | - |

30 – Earth Energy Spirals

_these are all around us. There are inevitably some negative ones as well as all those that are positive._

31 – Ley Lines / holy / Shamanic lines

Lines across the landscape set with intention, sometimes not so helpful to sensitive people as they can be felt by some as mild electric shocks.

32 - Reversal Points

Strange points within houses that are neutral until covered when they start to emit negative energy.

|    | - |

33 – Sink Holes

Geopathic equivalent of a Black Hole! An effective cause of human energy loss. Energy draining will make somebody feel exhausted if at this spot for a length of time.

<table>
<thead>

34 – Emotional Energy points (human conflict)

Everybody has these in their homes. Residues of negative human emotions created by the occupants of the house (anger, jealousy, rage, fear etc). Arguments and conflict between people in a house will leave hot spots where similar emotions are likely to be triggered again. A major irritation for homeowners if left from previous occupants, but just like the common cold, easily cleared.

Shown on the floorplan as orange asterisks

| Found | - |
35 – Power Objects / Detrimental Possessions

Those items of furniture, jewellery or anything that is in the house that you really don’t like and never understood why not. It catches in your subconscious every time you are near it.

Found =

36 – Historical Place Memories

Remnants of emotionally charged action left from the distant past. Memories or echoes tied to the land where these actions took place, usually instances of ceremony or sacrifice etc.

Found =

37 – Inter-dimensional Portals

Wormholes in time and space. These can be opened by accident or by intention. The entities they allow through tend to spread melancholy.

Found =

38 – Inter-dimensional place memory

Similar to the above but a remnant from an earlier period in time.

Found =

39 – Trapped Elementals

The little people or the borrowers from fairy stories, beings that more often than not help humans but can decide to be annoying if trapped.

Found = 0
40 – Tree Spirits

*Like elementals they are in the spirit realm to assist trees, they can get detached and lost from their host.*

| Found = |  |

41 - Animal Spirits

*Same as tree spirits but for animals.*

| Found = |  |

42 – Anything else passing through the site

POSITIVE INFLUENCES

There are many more positive influences operating in this space than detrimental ones. The following are two aspects that you will benefit from as a result of this energy re-balancing work.

43 – Energising/Healing Rays

These are positive and beneficial energy influences and are associated with the chakras and aura. These will be conveyed to you as coloured ‘rays’ as part of the energetic healing and re-balancing work.

N/A on this pass as we are already working on this for you.

44 – Beneficial Areas in the home

Identification of all the most important beneficial areas for you to harmonise your own energies with those of the world around you.

Optimal space for meditating and relaxing. Shown as yellow circles on the floorplan.
